**BRILL AV MEDIA**  
Jesteśmy tu dla Was od 2005

About us

## SERVICES

Brill AV Media Sp. z o.o. has been active in the audiovisual services market in Central and Eastern Europe since 2005. The company was created through the merger of two established AV industry leaders: Brill Audio-Visual from Hungary, operating since 1995, and AV Media from the Czech Republic, present in the market since 1993.

Today, Brill AV Media is a leading provider in Poland, delivering comprehensive technical support for business events, as well as offering design, integration, and maintenance of audiovisual systems across a wide range of spaces.

01

### INTERNATIONAL STANDARDS

With access to the international database and equipment from the oneAVteam and GPA groups, as well as being a proud member of AV Alliance, we deliver projects at the highest level of quality.

02

### COMPREHENSIVE SUPPORT

We are committed to delivering a professional approach, exceptional quality, and customized services tailored to the unique needs of each client at every project stage.

03

### TEAM OF EXPERTS

A large in-house team of designers, technicians, and project managers—over 140 professionals in total—brings extensive experience in delivering AV meetings and projects at the international level.

# SCENOGRAPHY

We offer state-of-the-art interpreting equipment, meeting EU and ISO quality standards. Ideal for government meetings, NGO gatherings, and business events.

---

Scope of services

36

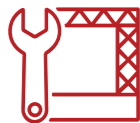

## DESIGN AND CONCEPT

Consultations and Ideas: Information on the possibility of consultations with experts who will help tailor the scenography to the character of the event.

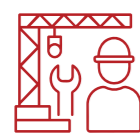

## VISUALISATIONS

High-quality visual concepts: It allows you to preview the event setup in detail and make informed decisions during the planning process. Our team creates realistic and tailored renderings to help you better understand the final look and feel of your event.

## CUSTOM-BUILT ELEMENTS

Individual Solutions: A description of the process of creating scenic elements that are tailored to specific technical and artistic requirements.

## STAGE PREPARATION AND ASSEMBLY

- Assembly and Disassembly: A description of services related to preparing the stage before the event and ensuring a quick and safe disassembly after its conclusion.
- Logistics and Technical Support: Emphasis on the fact that Brill AV Media provides professional support during assembly, as well as logistics for transporting the elements.

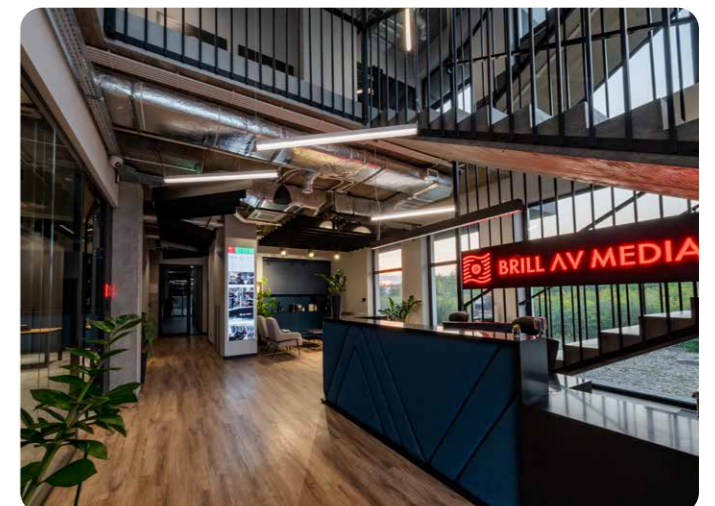

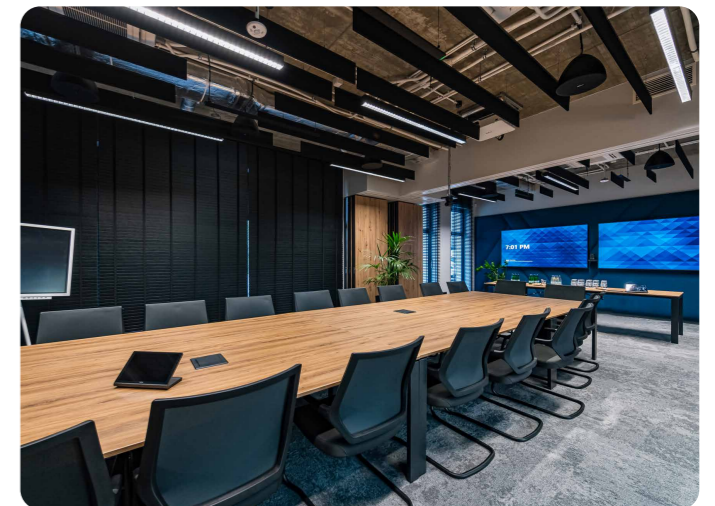

## PERSONALIZATION AND CUSTOM PROJECTS

Client Customization: Information that each project is handled individually, with a flexible offer designed to meet the expectations of even the most demanding clients.
